

WHY RUTGERS?

Rutgers was founded as one of nine colonial colleges nearly 250 years ago. In 1956, Rutgers became The State University of New Jersey, and remains the sole comprehensive public research university in the state. Now ranked among the world's top 100 universities, Rutgers University-New Brunswick is a member of the prestigious Association of American Universities (AAU), home to internationally acclaimed faculty, the Big Ten Conference's most diverse student body, and a top producer of Fulbright Scholars.

Rutgers APSI is endorsed by the College Board, and can offer workshop participants graduate credit or Continuing Education Units (CEUs) for successful program completion.
