

WHY RUTGERS?

Rutgers was founded as one of the nine colonial colleges nearly 250 years ago and is the lone comprehensive public research university in the state. Now ranked among the world's top 100 universities, Rutgers University–New Brunswick is a member of the prestigious Association of America Universities (AAU) and the Big Ten Conference, home to internationally acclaimed faculty, and a top producer of Fulbright Scholars.

We offer a wide range of AP Summer Institute workshops at two locations across five weeks, for your teachers' convenience.

Rutgers APSI can offer workshop participants graduate credit or Continuing Education Units (CEUs) for successful program completion.
